Bailey Remote Learning Schedule – Teacher Office Hours

ALL Assignments/Activities “Drop” into BLEND between 8:00AM and 3:00PM on Fridays.

Office hours will follow this schedule unless revised at a later date by Bailey Administration.

Blocks are scheduled so entire departments are meeting with students at the same times on alternating days.

Office Hours are dedicated to direct and indirect interaction with students. The time is used as online instructional time. That can be direct teaching, it can be modeling an activity, answering questions, clarifying content, meeting with small groups of any level, etc.

Students are encouraged to reach out and contact teachers during their office hours for extra help and support.

Teachers noted with an “ * ” following their name teach more than one subject (ex: 8th gr Math & Algebra I).

These teachers will make arrangements with their students regarding splitting their office hours during the week.

Special Education teachers’ office hours will vary - the teacher will reach out to their students to clarify their specific office hours.

“Native Plants and Animals” and “Environment Science” and “IPC” are all Science classes.
